Group 4_ECM2434

Workspace visible

Board

Meetings

2nd Feb 15:30-16:00

10th Feb 12:30-13:30

23rd Feb 10:30-11:10

Policies and resources

Meet as a group for at least half and hour each week to plan for the week ahead.

Give a days notice if you are not able to attend a meeting

Comment code as you go so if you reach a wall someone else can take over more easily

Use django throughout and follow pep8 guidelines

https://github.com/jjandrew/GroupEngineeringProject

Backlog

Database for storing points and user metrics

3

Award points for rooms

3

JA

Checklist of activities in each room

3

UI Tests for the login

3

Location UI

3

Upload page UI

5

Leaderboard UI

3

Homepage UI

3

Prevent users from accessing parts of the webpage unless they are logged in

3

Password reset option for user

3

Admin UI for verification of activities

7

Punishment for sending photos that aren't of rooms

7

Populate leaderboard with SQL

2

User account page (Show account details, points, friends, etc).

5

View a map of where you are and where you need to go

5

Detection of which rooms have been done in each building and when

7

Weighting points to maximise effectiveness

5

Store/ keep other user statistics (i.e. streak)
