

Meetings

- 2nd Feb 15:30-16:00

☰
- 10th Feb 12:30-13:30

☰

Policies and resources

- Meet as a group for at least half and hour each week to plan for the week ahead.
- Give a days notice if you are not able to attend a meeting
- Comment code as you go so if you reach a wall someone else can take over more easily
- Use django throughout and follow pep8 guidelines
- <https://github.com/jjandrew/GroupEngineeringProject>

Backlog

- View a map of where you are and where you need to go

5
- Database for storing points and user metrics

3

- Login for admins

5
- Detection of which rooms have been done in each building and when

7
- Checklist of activities in each room

3
- Have a graphical heat map of user activity

11
- Weighting points to maximise effectiveness

5
- Store/ keep other user statistics (i.e. streak)
- Populate leaderboard with SQL
- Award points for rooms
- Collect user location data, to know their position on campus
