

## Meeting Notes 1<sup>st</sup> March 11:30-13:30

### Agenda:

- Final UI design and plan presentation

Time: 11:30-13:30

Date: 01/03/2023

Present: Benjamin Theron, Daniel Glider, James Andrew, Louis Lusso, Oliver Medzinskii

### Discussion points:

- Discussed design for the UI.
  - This included colour schemes and which apps should be displayed on which pages.
- Assigned the last parts of the sprint throughout the group.
  - This involved:
    - Oliver Medzinskii finishing off the UI.
    - Daniel Glider simulating the location services.
    - Benjamin, Louis and James to carry out further testing on the application as well as finishing off the almost complete back-end.
- Planned how to split up the presentation:
  - James is going to do the introduction with the overall idea and goals of the project.
  - Louis and Daniel will be running through the current functionality of the application.
  - Olly will be discussing the UI choices of the application.
  - Ben will be discussing what is to be implemented in the next sprint.
