

Meeting Notes 20th March 12:00-13:00

Agenda:

Allocate work for the final week of the sprint.

Time: 12:00-13:00

Date: 20/03/2023

Present: Benjamin Theron, Daniel Gilder, James Andrew, Louis Lusso, Oliver Medzinskii

Discussion Points:

- Allocated work for each person to focus on in the last part of this sprint.
 - Oliver Medzinskii – Finish of the UI (submission page, leaderboard, etc) and connect it to the existing pages.
 - Daniel Gilder – Build the leaderboard for the buildings and create a toggle to switch between the leaderboard for players and buildings. Additionally, add email verification, to send an email to the email a user provides in the sign up to verify their identity.
 - Louis Lusso – Create the Gamekeeper validation (create Gamekeeper accounts, a UI for the Gamekeeper and a way for the Gamekeeper to validate images).
 - James Andrew – Calculate the CO2 wastage per building (put into a formal document, showing how much is generated and the amount of wastage from having windows open/ lights on etc.), integrate it into the building leaderboard and create a script to calculate CO2 this for each building.
 - Benjamin Theron – Create a location feature to validate that the user's IP is in the range of IP's provided by the campus WIFI and host the website.
